

Foundation Giving Areas

Beyond Financial Aid

Financial aid in the form of tuition assistance for low to moderate-income students helps open the door to higher education, but the added costs of books, supplies, transportation, and child care – which are often overlooked – can add up quickly. All too often, these expenses become so overwhelming that students cannot continue their studies. Gifts to Beyond Financial Aid help provide additional financial and community resources for students in need who may be on the verge of dropping out.

Impact Fund

Your gift to the Foundation's Impact Fund supports students in the most direct way possible. Your generosity in this giving area helps us meet emerging needs, provides funding for activities that enrich the student experience, offers relief to students in times of crisis, funds professional development opportunities for faculty so that our students are always learning the latest and greatest in their fields of study, and so much more.

Departmental and Program Support

Simply put, public funding for higher education is limited in Tennessee. As a community college, we are constantly striving to provide educational resources and opportunities that are on par with those found at any of our neighboring four-year colleges and universities. Your support of a particular department or program allows faculty to expand the College's educational amenities and improve the experiences of Nashville State students in the classroom and beyond.

Scholarship Support

The Foundation manages a number of scholarships for Nashville State students, many of which provide vital financial support to students that might not otherwise have the option of attending college. While Tennessee Promise and Tennessee Reconnect are an invaluable resource for many, some individuals do not qualify for these funds due to age restrictions. For more information about the established scholarships managed by the Foundation, visit nscf.org. To learn how you can create a new scholarship, please give us a call at (615) 353-3222.

Current Foundation Scholarships

*Nashville State Community College Foundation
Scholarship*
